

## Bodybuilder's Bulletin

28 March 2014

Bulletin No. 134

### New Guidelines to Fitting Bodies

New Guidelines to Fitting Bodies for the TG range are now available on the MANTED website – [www.manted.de](http://www.manted.de) - or follow the link from the UK Bodybuilder website – [www.man-bodybuilder.co.uk](http://www.man-bodybuilder.co.uk)

These new Guidelines have been completely revised and consolidated to include the latest Euro 6 chassis changes.

### **This Bulletin supersedes BB130**

In addition, all TGL/TGM Euro 6 chassis drawings in 2D CAD format are now available on the MANTED website.

TGS/TGX 2D CAD drawings are slowly being released over the next few months. This will take some time because of the number of variants in the programme.

There will also be 3D pdf files made available for TGS/TGX.

*Should you have any queries on the above, please contact Product Engineering  
on 01793 448338 or email [bodybuilder@man.co.uk](mailto:bodybuilder@man.co.uk).*

**Please circulate and then retain in the Bodybuilder's Manual**
